REQUEST FOR RECONSIDERATION

Commissioner for Patents

Sir:

In response to the Office Action dated February 8, 2005, the date for response to which is July 8, 2005 with a Petition for a Two Month Extension of Time enclosed herewith, please reconsider the patentability of the pending claims based on the following remarks.

By this response, no claims are amended, added, or canceled. Accordingly, claims 2-4, 6-9, 11-13 and 15-18 remain pending in the patent application.

Claims 2-4, 6-9, 11-13 and 15-18 were rejected under 35 U.S.C. §102(e) based on Mazur *et al.* (U.S. Pat. No. 6,072,792) (hereinafter "Mazur"). Applicant respectfully traverses this rejection because Mazur fails to disclose, teach or suggest all the features recited in the rejected claims.

For Example, Mazur fails to disclose, teach or suggest a method comprising, among other things, "defining certain transmission powers as a normal transmission power; ...alternately transmitting time slots at a transmission power higher than normal, using at least two different transceivers to minimize heat build-up in the transceivers; and placing a high-speed data channel in a time slot to be transmitted at a higher transmission power than
